"Inflatable Felix"

The Universal Addressability of Dumb Things

this event that took place in the 1920s when the first image that was ever broadcasted on TV was a doll of a Felix the Cat and ever since then I've obsessed with him. This kind of avatar, this figure of something that can be broadcast anywhere - he's like this magical figure, I wanted him to be this huge like god. I'm hoping people will leave offerings to him.
